Title Yard parking

Date: August 1, 2016

Agenda Item #2 Presented By: City Administrator Girdler

Description:

The police department was directed to look into an ordinance prohibiting vehicles from parking in residential yards. We checked with Moline and Rock Island to see how their ordinances deal with this problem. Both Moline and Rock Island use Zoning ordinances restricting off-street parking to improved areas. EM does have a zoning ordinance similar to the other cities:

- **10-16-1: OFF-STREET PARKING AREAS AND LOADING SPACES**
  (E) Development Standards: Off-street accessory parking areas shall be of usable shape, and shall be improved, in accordance with requirements of the City Engineer, with a durable and dustless surface and so graded and drained as to dispose of all surface water accumulation within the area. Any lighting used to illuminate such parking areas shall be so arranged as to reflect the light away from adjoining premises in any R District.

The RI ordinance also states that all motor vehicles and trailers in residential districts must be parked on an improved surface in accordance with requirements of the city. Enforcement is handled through the zoning department in RI. In Moline, the Neighborhood Improvement Office handles these complaints.

Other cities and communities we researched specifically address yard parking. Here is one example:

- In residential zones, vehicles cannot be parked on the grassy or unsurfaced area of your front or side-street yard. Generally, your front yard is the area between the front lot line and the front wall of the primary dwelling that is furthest from the front lot line, and your side-street yard is the area from the side-street lot line and the side wall of the primary dwelling that is the furthest from the side-street lot line.

However, this one allows parking in the back yard.

Some direction will need to be given as to the wording of an ordinance.
